

Magner 75 Series

For high volume currency processing

The 75 series offers the technology, performance, and productivity you expect from Magner - the global leader in table-top currency counters. With a wide range of features and options, the 75 Series is also designed for rugged reliability, even in the most demanding applications.

The 75 Series provides accurate high speed processing at 1.500 notes per minute, simplicity of operation and advanced currency authentication and detection capabilities.

Choose from a basic model with variable batching or a more advanced model with dual head, dual threshold magnetic counterfeit detection, and ultraviolet detection.

For the most advanced counterfeit detection available today choose the Magner 75UM!

Counting Speeds	600, 1200, and 1500 notes (selectable)
Display Type	LCD, 3 digit batch display, 4 digit count display
Hopper Capacity	500 Notes
Stacker Capacity	150 Notes
Batching	Variable 1-999 (preset of 5, 10, 20, 25, 50, & 100)
Error detection	Double, Chain, half-note, Jam, CF on MU model
Document Feed Mechanism	Advanced friction with intermittent roller`
Dimensions	10" x 11" x 9"
Weight	15.5 lbs.
Power Source	120V 60Hz or 230V 50Hz (switch selectable)
Density levels	Adjustable (4 levels)

The Model 75MV offers all the capabilities of the 75V along with Magner's field-proven dual magnetic detection technology. Whether you are balancing deposits or preparing them, the 75V and MV will help you do the job more efficiently and productively than ever before.
