Shear Tech DES2400 **Document Destripping System**

The DES-2400 is a small table-top automatic check destripper - fast and clean solution for "Return Item" and "Reject Item" applications as well as for any check repair needs.

- Removes taped or glued strips.
- Disposes of separated strips.
- Destrips up to 2400 manually feed documents per hour.
- Requires minimal maintenance.
- Allows restripping.
- Requires less than 1 cubic foot of tabletop space.
- Holds close tolerance cut over full document length.
- Handles all common check lengths.
- Detachable stacker.
